

This project consisted of the conversion of an old factory into a comprehensive center for the arts including individual loft spaces for artists, a theater, a café, gallery spaces, production studios for glass blowing, pottery making and woodworking. The center also contains classrooms and dance studios. The project scope included the following:

- Site Planning
- Storm Drainage and Erosion & Sediment Control
- Grading and Landscaping
- Utility Design and Site Lighting
- Preliminary and Final Land Development Plans
- Construction Documents
- Construction Coordination
- Municipal Approval
- Plaza and Walkway Designs

SBI worked closely with the City of Reading and the Architect to provide rehabilitation of a former industrial site into a center for the arts.
