

This project was prepared for the Wilson School District as the Spring Ridge Elementary School. The project provided for a new building, athletic facilities, running track and a parking facility. The project scope contained the following services:

- Site Planning
- Vehicular and Pedestrian Circulation Patterns
- Parking Layout
- Storm Drainage & Erosion & Sediment Control
- Grading & Landscaping
- Utility Design and Site Lighting
- Preliminary and Final Land Development Plans
- Access Management
- Construction Documents
- Municipal Approvals.

This project was necessary due to the increased student population in the School District and the need for additional classrooms, teachers, etc. to meet that increased demand. This project also provided the student body with first-rate playgrounds for every day use.
